It is always regrettable to see a good Shorthorn herd dispersed that has been built with sound judgment, good care and a world of enthusiasm.

Such a herd is the Fliginger herd. The decision to disperse was not an easy or a sudden one. Charlie and his good wife have worked hard, raised and educated their family, and contributed much to many ways of endeavor. So their desire to retire and take life a little easier is understandable.

Charlie Fliginger has contributed much to the Shorthorn Industry. He built his herd well. He has given an enthusiastic and helping hand wherever he could. He has served as President of the South Dakota Shorthorn Ass'n, the Interstate Ass'n, and the Sioux Empire Shorthorn Club. He has judged strong state and district sale shows. He has exhibited at and supported many fairs, he has consigned to and supported many sales. He has helped to strengthen the Shorthorn influence on the farms and in the range areas. For all this he is entitled to the support of many.

This is a good herd of cattle. The breeding background is right. The quality, individuality, health, productivity and adaptability to satisfy all phases of the beef industry is excellent.

The general uniformity and breeding of the herd and the large sale numbers offer a great opportunity to start new herds on a sound basis from a herd that is at it's peak.

I strongly recommend that you attend this sale and see this great offering for yourself. You will be surprised.

ALBERT J. HAMANN, SALE MANAGER

Twenty years ago we established our Shorthorn herd by buying several top females from the noted herd of F. E. Jackson, our neighbor and good friend.

Our herd foundation proved to be very prolific and multiplied rapidly. Additional foundation stock was added which proved equally productive. We also discovered that we loved the Shorthorn business and enjoyed the people in it.

We were fortunate in the selection of seed stock. We have tried to improve on it by buying the best herd bulls we could obtain from the strongest herds in the country. They have not disappointed us and it has been a great source of satisfaction and pride to see the herd grow and improve year after year. Further, we made it our policy to rigidly maintain the size, scale, stamina and productivity of the herd. Small, slow gaining and non-productive cattle were never tolerated nor maintained. We have tried to use sound herd management, up-to-date health practices and modern production testing methods and feel the results are apparent.

We have been deeply gratified by the acceptance of our productions by sound cattlemen and especially good commercial producers in the Dakotas, Montana and Wyoming.

The Shorthorn business has been good to us, it has improved our home and farms, it has educated our children and started them on their own, several in the Shorthorn business also.

However, we have worked long and hard and now feel we should retire. We have rented out the farm and are building a new home in town. So we are dispersing the entire herd which is not easy for us.

The only exception is we are not selling all of our younger bulls since usually only a limited number of bulls can be sold in the fall. These will be sold in the spring when they are old enough for service.

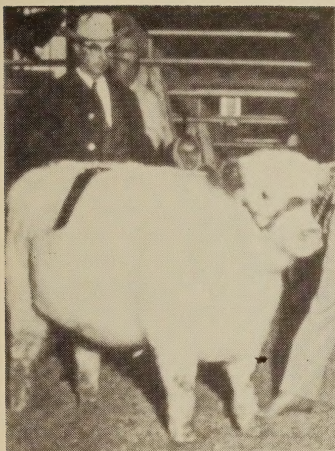

We feel the herd is now at it's peak and can recommend every individual to all our friends, good customers, and everyone interested in good beef cattle. They will do as well for others as they have done for us.

Therefore, we cordially invite you to attend our sale and see for yourself the results of our efforts. Also, you will be most welcome to visit and inspect our herd before sale day.

We trust you will be with us sale day.

**FEMCO ROTHEMAY**—Although carrying some age, here is one of the most royally bred and top producing cows in the herd. Every calf she has produced has been a good one and her offspring have been equally productive as six daughters and 3 granddaughters sell in this sale. She is sired by the \$8,000 Camson Prince Bob and her dam is by the great Prince Royal who sired a national show champion and eight of the winning ten head at San Francisco in 1952. This great cow sells with a MAY, RED BULL CALF AT FOOT by Bilmar Witness and is pasture rebred to Bilmar Wasp. A valuable combination.

# Standard Guarantee

## Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.
